

Envelope & Card Measurements

Determining the size of a finished card is sometimes dictated by the size of an available envelope. Most cardmakers create cards that are 5-1/2" x 4-1/4", because these are made by cutting a sheet of card stock in half, creating two card bases.

There are several types of envelopes:

- **Announcement Envelopes:** typically have square flaps
- **Social and Baronial Envelopes:** typically have pointed flaps
- **Business Envelopes:** holds an 8-1/2" x 11" sheet of paper, folded into 3 panels

Stampin' Up! sells packs of **40 Medium Envelopes** (A2, square flaps), in two colours:

- Whisper White Medium Envelopes: 107301, \$8.50 CDN
- Very Vanilla Medium Envelopes: 107300, \$8.50 CDN

The **Envelope Punch Board** is an asset for creating non-standard sized envelopes. A guide is printed on the top of the board with measurements for cutting and scoring, and a scoring tool is included.

Item No: 133774
Price: \$27 CDN

When mailing larger or heavier cards, consult with your local post office to see if additional postage will be needed. Canada Post details can be found on their website:
